PROJECTS

RPG MANAGER | <https://p2-rpg-manager.herokuapp.com/> | <https://github.com/malenchite/rpg-manager>

The RPG Management app provides a universal storehouse that allows players access to characters and their inventories across games. Players have the ability to access saved items across accounts so they can all share in their inventions.

- Front-end design & JavaScript
- HTML/CSS, Javascript, NodeJS

WEB DEV GAME | <https://the-web-dev-game.herokuapp.com/> | <https://github.com/malenchite/web-dev-game>

Web Dev Game is an app geared towards adults who are interested in learning or sharpening their full-stack web development skills. With much of a board game feel, this two player game allows participants to draw cards that have questions. The chat feature allows gamers to discuss the question to determine if the question has been answered properly, thus awarding points based on a funding system.

- Back-end, Front-end design
- HTML/CSS, Javascript, ReactJS, NodeJs, Server Side APIs
